

In **Literacy**, I will be learning about explanation texts. I will be using WAGOLLs to understand the importance of being clear in writing and will use this to create an explanation text about the water cycle. I will then be re-telling my own weather story using core texts about weather by Sam Usher.

In **Maths** I will continue to learn about the four number operations; add, subtract, multiply and divide. I will also continue to learn about fractions; in particular the equivalence of one half and two quarters. After that, I will learn about different measurements, including cm and m. I will be able to read scales that show numbers and some that don't.

In **topic**, I will be learning about the weather. I will look at different types of weather including some extreme weather in other countries. I will be comparing this with England and will use this information in my DT project.

Topic title: **What's The Weather?**

Subject Focus: **Geography**

In **Art**, I will be creating a collage based on weather. I will be researching different artists and creating my own work in their style. In **DT**, I will be designing and creating my own weather station.

**PE** in Class 2 is on Tuesday and Thursday. I will need dark shorts and my Jerry Clay Academy t-shirt (or a white t-shirt) for indoor PE and a dark tracksuit for outdoor games. I will also need a spare pair of trainers/pumps. I will be learning about Athletics this half term in preparation for sports day.

I will receive spelling homework weekly. This will be set on a Thursday and will need to be completed by the Wednesday after.

I will be given a Maths task every other week and a Comprehension task when I do not get a Maths task. I should also be practising my times tables regularly using Times Tables Rockstars.

In **ICT** this half term, I will be learning about photography skills. I will be learning about what makes a good photograph as well as being able to adapt and edit photographs I have taken to make them better.
