

In **Literacy**, I will be learning about adventure stories. I will be using our core text ' Boy Of The Deeps' to develop our understanding of mining and inspire us to write our own adventure stories. I will be striving to use exciting vocabulary and develop extended sentences.

In **Maths**, I will begin by developing my understanding of place value of numbers to 100. I will be learning to represent number to 100 in a variety of ways so that I can apply my understand to the four number operations; add, subtract, multiply and divide.

In **topic**, I will be learning about the history of mining. I will be researching facts and information about mining to develop my understanding and researching key events in mining history. I will also be applying my geography skills to locate mining across the world.

Topic title:
Magnificent Miners
Subject Focus: **History**

Also in Art, I am going to be focussing on a mining artist, Tom McGuinness, to inspire my own silhouette, oil pastel painting of miners. I will use my empathy and understanding towards miners to help me select appropriate colours, while using a range of materials and techniques to create my Art piece.

PE in Year 2 is on Monday and Thursday. I will need dark shorts and my Jerry Clay Academy t-shirt (or a white t-shirt) for indoor PE and a dark tracksuit for outdoor games. I will also need a spare pair of trainers/pumps. I will be learning about benchball, gymnastics and dance this half term.

I will receive spelling and comprehension homework weekly. This will be set on a Friday and will need to be completed by the Wednesday after.

I should also be practicing my reading daily and my times tables regularly to develop fluency.
I will be given a Maths task every other week.

In **ICT** this half term, I will be learning to code. I will be programming robots to move around in different directions and places. I will then apply my learning to code on the programme 'Scratch' to create my own game.
