

### Online learning:

**Interactive Spelling test – on Spelling Shed. Thursday 23<sup>rd</sup> April @ 3:00pm.** Fingers crossed everyone can get on – I know there have been issues. Thank you for persevering!

### Manga high

I have set some more assignments on Manga High, they are all based on revision of number and place value. Please encourage your child to complete some of these during one of their Maths sessions this week 😊

### Maths

Maths (from the pack)

Multiplying and dividing by 10 100 and 1000 activities from the learning pack.

### White Rose Maths

These will be uploaded as one of the Seesaw activities each day this week, from Tuesday. The link is also on Seesaw but I will attach it here as well:

<https://whiterosemaths.com/homelearning/year-5/>

The videos talk through the learning and the worksheets will be downloaded onto seesaw. This means the children can draw/write straight onto these to show their learning. They may want to record a message or a video of them learning! I can then feedback on this. If you have a printer, you may wish to print out if your child prefers that. You can then take a photo to put onto Seesaw.

### Diamond Dash and Times Table Rockstars

Please make sure your child has the opportunity to access Times Table Rockstars regularly at home.

## YEAR 5 HOME LEARNING

Dear Parents,

I hope you have all had a lovely Easter break! We have been so lucky with the sunshine and I hope you have managed to enjoy some of it outside.

Please see this overview for learning for this week. Most of this can continue to be done in learning/exercise books alongside the start of children logging on to Seesaw to complete **two daily activities** too.

Miss Harling

### Reading Comprehension

Please complete the next reading comprehension, which is called **Winter Paralympics**. This is in your pack and you can complete on the sheet.

**Kindness:** On Tuesday, there will be a Kindness scavenger hunt on Seesaw as the one of the children's activities. There will be instructions but please encourage them to think about whether they want to take photos/record their voices to share their learning.

### Spelling, Punctuation and Grammar (SPAG)

Practise and research our spellings for this week's test. These are challenge words. Write them into sentences of your own in your work book or on your computer-maybe add pictures to help 😊

After Easter spelling test (challenge words) : accompany, communicate, conscience, desperate, disastrous, interfere, nuisance, queue, restaurant, rhythm

Parenthesis worksheets from the learning pack.

Parenthesis is the use of brackets, dashes and commas to add extra detail into the middle of a sentence.

### Science/Creative Work (2 week project)

Our Science topic would be Earth and Space this half term!

Can you create a solar system at home showing each of the planets **in order** within the Milky Way?

How creatively can you do this?! Maybe a song? A scaled model? A story?

### Writing

Create a superhero!

What is a superhero?

Each day I'd like the children to develop their superhero, finishing with a story about their hero. Heroes are all around us! Please encourage your children to think about those people on the news who are being heroes each and every day, as well as the superheroes we know and love from cartoons or films to inspire them to make their own.

### History / Geography: South America

I will be uploading some Geography work to Seesaw based on the study of South America. Get researching countries and capitals!

### Daily Reading!

Keep up the reading – it's been great to see you all busy reading on twitter, in some very calm and creative looking spaces!

**Twitter:** Tag us in pictures of you learning from home! @JCAWakefield
