

Maths Workshop – 09/03/17

Parent Feedback

The Maths Workshop helped to communicate our main aims for the academic year and the key developments that have taken place so far. These have included our approach to Mathematics (Concrete, Pictorial, Abstract), the introduction of Diamond Dash and our diagnostic assessment system.

“Excellent Maths teaching. The Cathedral Academy (Secondary) Headteacher has commented that pupils from this school are very well drilled within Maths and have a very good understanding. Keep up the fantastic work”

“Good simple explanation of the different aspects and good resources”

“Really useful session. I feel much more confident in supporting my child’s learning at home, thank you!”

“Very informative! Thank you for giving us an insight into how Maths is taught at JCA”

“I feel much better informed about how Maths is taught at JCA. Thank you for giving up your time to share this with us”

“Very useful to understand how ‘Diamond Dash’ works in school”

“Very useful to find out what Diamond Dash is! Liked seeing the various teaching methods for all children’s styles of learning”

“Very clearly explained, thank you!”

“Great session, thank you for your time”

“Lots of useful information. I now understand more of what my children are doing, so that I am more able to support at home”

“Good session, very informative”

“Great to see all the techniques used and also the methods and enthusiasm of the teachers”
